Tuberculosis (TB) Screening

Check any that apply:

I certify that I:

- ☐ am from or have lived for two months or more in Asia, Africa, Central or South America or Eastern Europe.
- ☐ have been diagnosed with a chronic medical condition that may impair my immune system.
- ☐ am a health care worker.
- ☐ am a volunteer or employee of a nursing home, prison or other residential institution.
- ☐ have contact with a person known to have active tuberculosis.
- ☐ have none of the risk factors listed above.

If any apply, TB Screening with a TB Skin Test is required. Documentation of PPD Mantoux skin test (done in the US within the past 12 months), read and documented in millimeters of induration, must be provided with this document. International students from countries wtih high incidence of tuberculosis will be screened during their first semester with an IGRA blood test. A chest x-ray, completed in the US within 12 months of the first day of classes, will be required for anyone with a positive screening test. A negative chest x-ray is not a substitute for a skin test.

Individuals who have been treated for latent TB infection or active TB disease must provide documentation of adequate treatment as specified by the CDC (Centers for Disease Control).

Consent for E-mail Communication between SHC Staff & Patient

I hereby give my consent for Student Health Center staff members to e-mail me at my Truman e-mail address regarding non-urgent matters, such as appointment reminders, immunization compliance issues, holds on my registration, and notifications that laboratory or radiology results are available. (In no event will the Health Center use electronic communication for highly sensitive personal health information, such as HIV/AIDS, mental health, or substance abuse.) ☐ *Yes* ☐ *No*

Required Immunizations

1. All students born after Dec. 31, 1956, must comply with Truman's two-dose **MMR (Measles/Mumps/Rubella) Immunization Requirement**. The first dose must have been given at age 12 months or later. The second dose must have been given at least one month after the first one. Individuals opting out of this immunization for medical reasons must provide titer results documenting immune status.
2. All students living in University housing must show documentation of **current meningococcal vaccine** given within 5 years of entry to university and after age 16 years. Medical exemptions are allowed with signed statement (by licensed medical physican or nurse practioner) that the immunization would seriously endanger the life or health of the student.

Recommended Immunizations

The following immunizations are recommended, but not required, for all University students. Records of these immunizations should be supplied if available.

- **Tdap** administered within the past 10 years.
- **Hepatitis B series** (3 doses). Even if incomplete, provide dates of any doses received.
- **Influenza vaccine.** Available each fall and advised for all students.
- **Varicella (chicken pox).** No vaccine is needed if there is a good history of natural infection. If history is questionable, a blood test can be done at the student's expense to determine immune status. If history of chicken pox infection, indicate approximate: Month _____ Year_____
- **Human Papilloma Virus Series**. Recommended for students over age 11 years.
- **Mumps and Rubella vaccination,** administered according to the MMR guidelines.

Health Insurance Information

Students are required to bring all pertinent health insurance information with them to Truman State University. This would include a copy of the front and back of the medical insurance card and prescription card if applicable. Those with no insurance must so advise Health Center personnel.
